NOTICE OF ALLOWANCE

Response to Arguments

1. Applicant's arguments, see pages 5-8, filed October 14, 2004, with respect to claims 1 and 2 have been fully considered and are persuasive. The rejection under 35 USC 103(a) of claims 1 and 2 has been withdrawn.

Allowable Subject Matter

2. Claims 1 and 2 are allowed.

3. The following is an examiner's statement of reasons for allowance: As argued by the applicant, it is the examiner's opinion that the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious a fuse and relay puller, comprising a puller substantially formed of two parts, coinciding with both ends of a main puller body, one end being shaped to extract fuses and the opposite end being shaped to extract relays, said puller being characterized in that the shape of the main body of the puller is a profile composed of two parallel beams joined together by means of a plurality of ribs, and puller ends having lateral profiles, forming different protrusions enabling holding fuses with one end and relays on the other end.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
